

Media kit 2017

With more than 570,000,000 page views per month, POST Online Media is a trusted news website.

POST uses time-based advertising model. That means that your ad is visible on its position to all users during the advertising period. No hassle, no complicated calculations: the ad is visible every time a page is opened.

Cost-effective advertising model. Advertisers can have a top banner ad for as little as **\$0.012** per thousand impressions. Please scroll below for the price breakdown.

The visitors' demographic is truly global with the emphasize on the United States, and that makes POST a very suitable medium to spread your messages across different markets. Pricing is for an advertisement for one month.

Because of their size and readers' habits, side boxes are the most effective way of advertising, especially in the case of the large 300x600 picture ad.
